COURSE SYLLABUS

3. ACADEMIC CONTEXT

3.1. Course Description and Objectives

Financial accounting is concerned with the use of information and should be helped by managers to make both better judgements and decisions about the organisation. Accounting is the process of identifying, measuring and communicating information. Thus, this course is designed to provide a basic understanding of financial accounting, including introductory accounting theory, concepts, principles and procedures. Also, an overview of the major financial statements is provided.

Moreover, it has to be pointed out that a shared aim to be promoted throughout the whole accounting curricula is to infuse students with values in order them to be able to understand ethics in accounting profession and the role of accounting in promoting social responsibility, sustainability and accountability.

3.2. Contribution to the Training Plan

This course is scheduled on the first year of the Business Administration and Management Degree. This subject represent an introductory course providing the students with the basis of financial accounting, the general principles, standards and accounting language. This subject will provide future graduates with a general knowledge of one of the key business information tools for decision making. In the second year, intermediate financial accounting further develop this knowledge by focusing on accounting rules for measuring and recording.

3.3. Recommendations or Prerequisites

Students are advised to use the accounting standards and to access to the virtual platform.

COURSE SYLLABUS

4. SKILLS

COURSE SYLLABUS

6. METHODOLOGY AND RESOURCES

Our subject has 6 credits ECTS, so the total numbers of students learning hours is 150 and it is distributed as follows :

- Presentable work (30%): 45h (15 weeks 2 class per week of 1,5h. Basic Teaching (50%): BT Practical and Development Teaching (50%): PDT)
- Individual work (60%): 90h
- Evaluation (10%): 15h

RESOURCES

It is essential the use of the virtual platform. In the presentation of the subject, lecturers will show the student the subject space and all resources and materials that you may access and use. Students shall have at all times the material necessary for the follow-up of the subject (BT and PDT), which will be made available through the virtual platform.

Related to the course materials are distinguished two types:

- Slides of each unit, which will be made available to the student before the beginning of each topic. It is a script for tracking classes which reflects the minimum contents of each topic.
- Exercises books, containing the statements of all the exercises or activities relating to each theme, some of which should be performed by the student previously for subsequent correction during the sessions of PDT.

COURSE SYLLABUS

7. ASSESSMENT

To pass this subject, students could take two official exams per year, which will be governed by the same evaluation criteria.

The evaluation of various educational activities will take with the following criteria:

- The content and skills acquired in Basic Teachings sessions (Lectures) represent 50% of the overall rating and is evaluated using a theoretical-practical final exam. However, it is necessary to obtain a minimum of 2 points out of 5 in the final exam to be able to pass the subject.
- The content and skills acquired in Practical Teaching and Development sessions (seminars) represents 50% of the overall grade. This part will be assessed continuously through the various activities carried out during the course, mainly through participative attitude of students in class (10%) and several assignments (40%). However, it will be possible to recover in the final exam 40% corresponding to the tests carried out by a single test. Students have two requirements: regularly attended class (80% of assistance both in BT as PDT) and the weighted average score of tests is more than 3 points out of 10.

Students will pass if you get 5 points or more.

IMPORTANT, please note:

- For students officially enrolled in this course, continuous assessment obtained on Practice and Development Learning will be valid through final evaluation periods for the current academic year, but not for the following academic year.
- All students enrolled in the course must turn in a fully completed photo card to the professor within the first two weeks of class (including a valid email address).
- International exchange students (Socrates/Erasmus/PIMA) sit the same exams and are evaluated according to the same criteria as other students with the exception that they will be allowed to use a dictionary when sitting exams.

MOBILITY:

The UPO students participating in one of the official mobility programmes (Socrates-Erasmus, Seneca, Atlanticus, Mexicalia, etc.) who take this course outside their study agreements will be able to recover the part of the final mark corresponding to the continuous evaluation doing an additional task, apart from the written exam. Such students should notify the teaching stuff of the course before 30 April 2012. Any break of the deadlines must be acknowledged by the Academic Coordinator of their Mobility Program.

COURSE SYLLABUS

PLEASE NOTE: In compliance with Title II, Chapter II, Articles 12.2 and 14.3 of the Normativa de Régimen Académico y de Evaluación del Alumnado (signed in Consejo de Gobierno de la Universidad Pablo de Olavide de Sevilla on July 18, 2006): “With regard to essays or other homework, plagiarism and/or the use of unoriginal material—including information obtained from online sources—without explicit and proper citing (and, where required, the express permission of the author), may warrant a grade of FAIL for the module, in addition to any other applicable academic sanctions warranted by academic misconduct on the part of students. [...] After consulting professors, students and any other university bodies deemed necessary, the Director of the Department responsible for the module in question will decide on the need for further measures including an official academic integrity hearing.”
